Head Maintenance  
G Blast Furnace

G-BF/M-5/565/08

Dt. 18.10.2008

To whomsoever it may Concern

This is to certify that M/s. S.G. Enterprises Pvt. Ltd. executed the repair job of the broken lever arm of Upper Seal Valve installed in the PW charging system of 'G' Blast Furnace on 17<sup>th</sup> September'08 under a break down situation. This resulted in reduced delay hours of the plant and with minimum loss of production. The repair done is performing satisfactorily thereafter without any problem.

It was a very positive response and excellent work done by the team comprising Mr. S. Banerjee and Mr. Kamlesh Singh using MAGNA 303 welding electrodes.

We hope to get similar support from the above team in future too.

Yours faithfully,  
For The Tata Iron & Steel Co. Ltd.,

*Sanjay Kedia*  
Head, I&S Mech. Maint. 18-10-08

Annexure : Details of repair work done.
